## EXPERIENCE

### Creazy Media — Wordpress/Elementor Developer

AUGUST 2024 - Present

- Designed and developed WordPress websites with Elementor, boosting user engagement and functionality.
- Optimized for SEO, driving increased organic traffic and improved rankings.
- Enhanced user experience, reducing bounce rates and increasing conversions.
- Delivered tailored solutions, aligning with client objectives and generating leads.

### Regendocs — Front-End WordPress Developer and Website Manager

JUNE 2023 - FEBRUARY 2024

Responsibilities: Coordinated and efficient company website Design; Redesigning an existing website; Adding and building up of website pages; Regular updating of websites; Addition of new pages on the website; Updating all the necessary plugins; Responding to messages from visitors.

### Tobams Group, Remote — WordPress Website Developer and Website Manager

APRIL 2023 - AUGUST 2023

I worked with the organization's digital team to design and build multiple website front-ends, create website architecture, and manage back-end development including database and server integration. My responsibilities also included generating custom WordPress themes and plugins, conducting performance tests, troubleshooting content issues, training clients on WordPress, and monitoring the performance of live websites.
